The following resolutions, presented by President Richmond of Union College, were unanimously adopted by the Association:

"This Association desires to put on record its disap-

proval of the evident tendency to over-emphasize the spectacular features of intercollegiate athletic sports.

"We approve of athletics in the college. We should give them more support and encouragement, not less. But our effort should be directed to the building up of the health and physical well being of all of our students and not directed primarily to the development of a few highly specialized athletes or to the winning of games. The intense rivalries and the excessive demands of the public have laid upon the colleges a strain to which they ought not to be subjected. The temptation to increase prestige by gaining athletic victories has resulted in some instances in the sacrificing of our ideals and in the lowering of the tone of intercollegiate contests.

"Whether there is less of the professional spirit or more than has obtained in the past is perhaps a matter of debate—the important thing to register is that there is too much.

"We consider it our bounden duty to see that there shall not be the least suspicion of professionalism or commercialism in our college athletics. To the end that we may put an end to certain conditions and practices that are at present a menace to the amateur spirit in college athletics, RESOLVED

1. That we urge upon the colleges and universities of this Association a closer supervision and a stricter vigilance in excluding from their athletics every practice that has in it the least taint of the professional spirit, and to organize their athletics that the physical well being of all the students may be secured. Specifically we recommend the general adoption by the members of this Association of the one year freshman rule and the rule known as the migratory rule.

"2. That this Association request the Carnegie Foundation to provide a survey of the athletic situation in our colleges in the hope that a way may be found and a general plan adopted by which clean athletics may be provided for all and at the same time preserving the generous rivalries and enthusiasms of intercollegiate contests without undue sacrifice of energies and with no sacrifice of ideals."

FRIDAY AFTERNOON, JANUARY 13, 1922

The session was opened with prayer by President Wilson of Maryville College. One hundred and twenty-five were present at this session.

It was voted that the report of the Commission on Academic Freedom and Academic Tenure be laid on the table, to be taken up again at the next meeting of the Association, and that the Commission be continued, with instructions to investigate the subject further.

It was moved and voted that this Association suggest to the American Council on Education either the appointment of a joint commission on academic freedom and academic tenure from its constituent bodies, or the securing of an appointment of such a commission by each of such bodies, with a view of having concerted action and a statement of principles at the earliest possible time.

It was moved and voted to authorize the secretary of the Association to write a letter of appreciation to the Secretary of War, Mr. Weeks, for the issuance by him of letters of recognition of the work of the colleges in the war. It was voted that a letter of appreciation be written Governor Allen of Kansas for his assistance in securing this action.

The following resolutions, presented by Dr. George F. Zook, of the Bureau of Education, were unanimously adopted:

"Resolved, that this Association views with concern the lax regulations governing the granting of charters to higher institutions in the District of Columbia, and the resulting abuse of educational standards and damage to the good name and reputation of American colleges and universities, both at home and abroad;

"Resolved, that this Association request our Senators and Representatives in Congress assembled to pass as speedily as possible a law providing adequate safeguards for granting charters to higher institutions located in the District of Columbia, and for maintaining high educational standards in these institutions."

Friday Evening, January 13, 1922
